Meet the Principle

A Q & A with Mr. Finn

Yearbook: Why did you become a principal?
Mr. Finn: I saw that weak leadership effected students in a negative way and wanted to effectivley change schools. I felt as if I had great ideas that would impact students in a positive way. I also wanted to prove a teacher/basketball coach can create something that didn't exist.

Yearbook: What was school like for you as a teenager?
Mr. Finn: School was amazing! I was lucky enough to attend two different highschools that had school spirit, a great principal, and amazing oppurtunities.

Yearbook: How do you think technology can improve education?
Mr. Finn: Technology can do things that would require 4 to 5 teachers to do. It's great for going back and relearning, and also for personalized assements. Although this is true it is not the answer, teachers are still needed. The personal connection between students and teachers is so important. The combination of teachers and technology is the answer, not one or the other.

Yearbook: Are you a cat or a dog person?
Mr. Finn: Both! I have two cats and two dogs. I love the loyalty and human like soul dogs have, but I also like that cats make you earn it. You have to work for their affection.

Yearbook: What is your favorite food?
Mr. Finn: Anything Itallian! I also love to cook.

Yearbook: What did you do before you became a principal?
Mr. Finn: I was a men's college basketball coach for Johnson and Wales College. We were division III but played division I and II schools.

Now about, to move on to next steps. His life up to now, getting ready and prepped. From Mom, Dad, and Caitlyn too, we have ony best wishes for you. Congratulations on this next milestone. We support your endeavors, you're never alone.
